# CRONAMERE ALPINE NURSERIES, Inc.

THIS CATALOGUE includes only a partial number of the many species and varieties of alpine and rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

The following list of plants have been tested for hardiness. All our plants are thoroughly acclimatized in this section before being sent to the customer. We have found after they become accustomed to our climatic conditions in New England that their growth and cultivation present very few difficulties or losses when transplanted in other gardens.

We have a trained group of men, who are thoroughly experienced in the construction of rock gardens, building walls and pools. Advice given freely on these subjects.

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

## TERMS OF SALE

Sufficient money must be added to order to cover cost of postage. Our terms are strictly cash, but will ship C .O. D. provided 25% of the amount of the order is remitted.

Where two prices are mentioned, the last is quoted for specimen size plants.

We cannot be liable for cases of failure due to transportation or other causes.

10% discount is allowed on ten plants of one variety.

## PLEASE READ

**F**OR THOSE who are particularly interested in growing native plant material, we have a list which will be sent on request.

¶The plants will be shipped direct from our collector in the north. Plants coming from this region are perfectly hardy and many of them are beautiful subjects for the rock garden.

---

Our plants are strong and healthy, both potted and field grown stock, and should give you bloom the first year. We do not like stingy plants ourselves and think that our customers feel the same way about it. All plants are packed so that practically all root disturbance is avoided. Planting suggestions and information on cultivation gladly furnished.

## SEEDS

If you are interested in obtaining seeds of any of the plants listed in this catalogue, write us and we will be glad to reserve them for fall delivery.

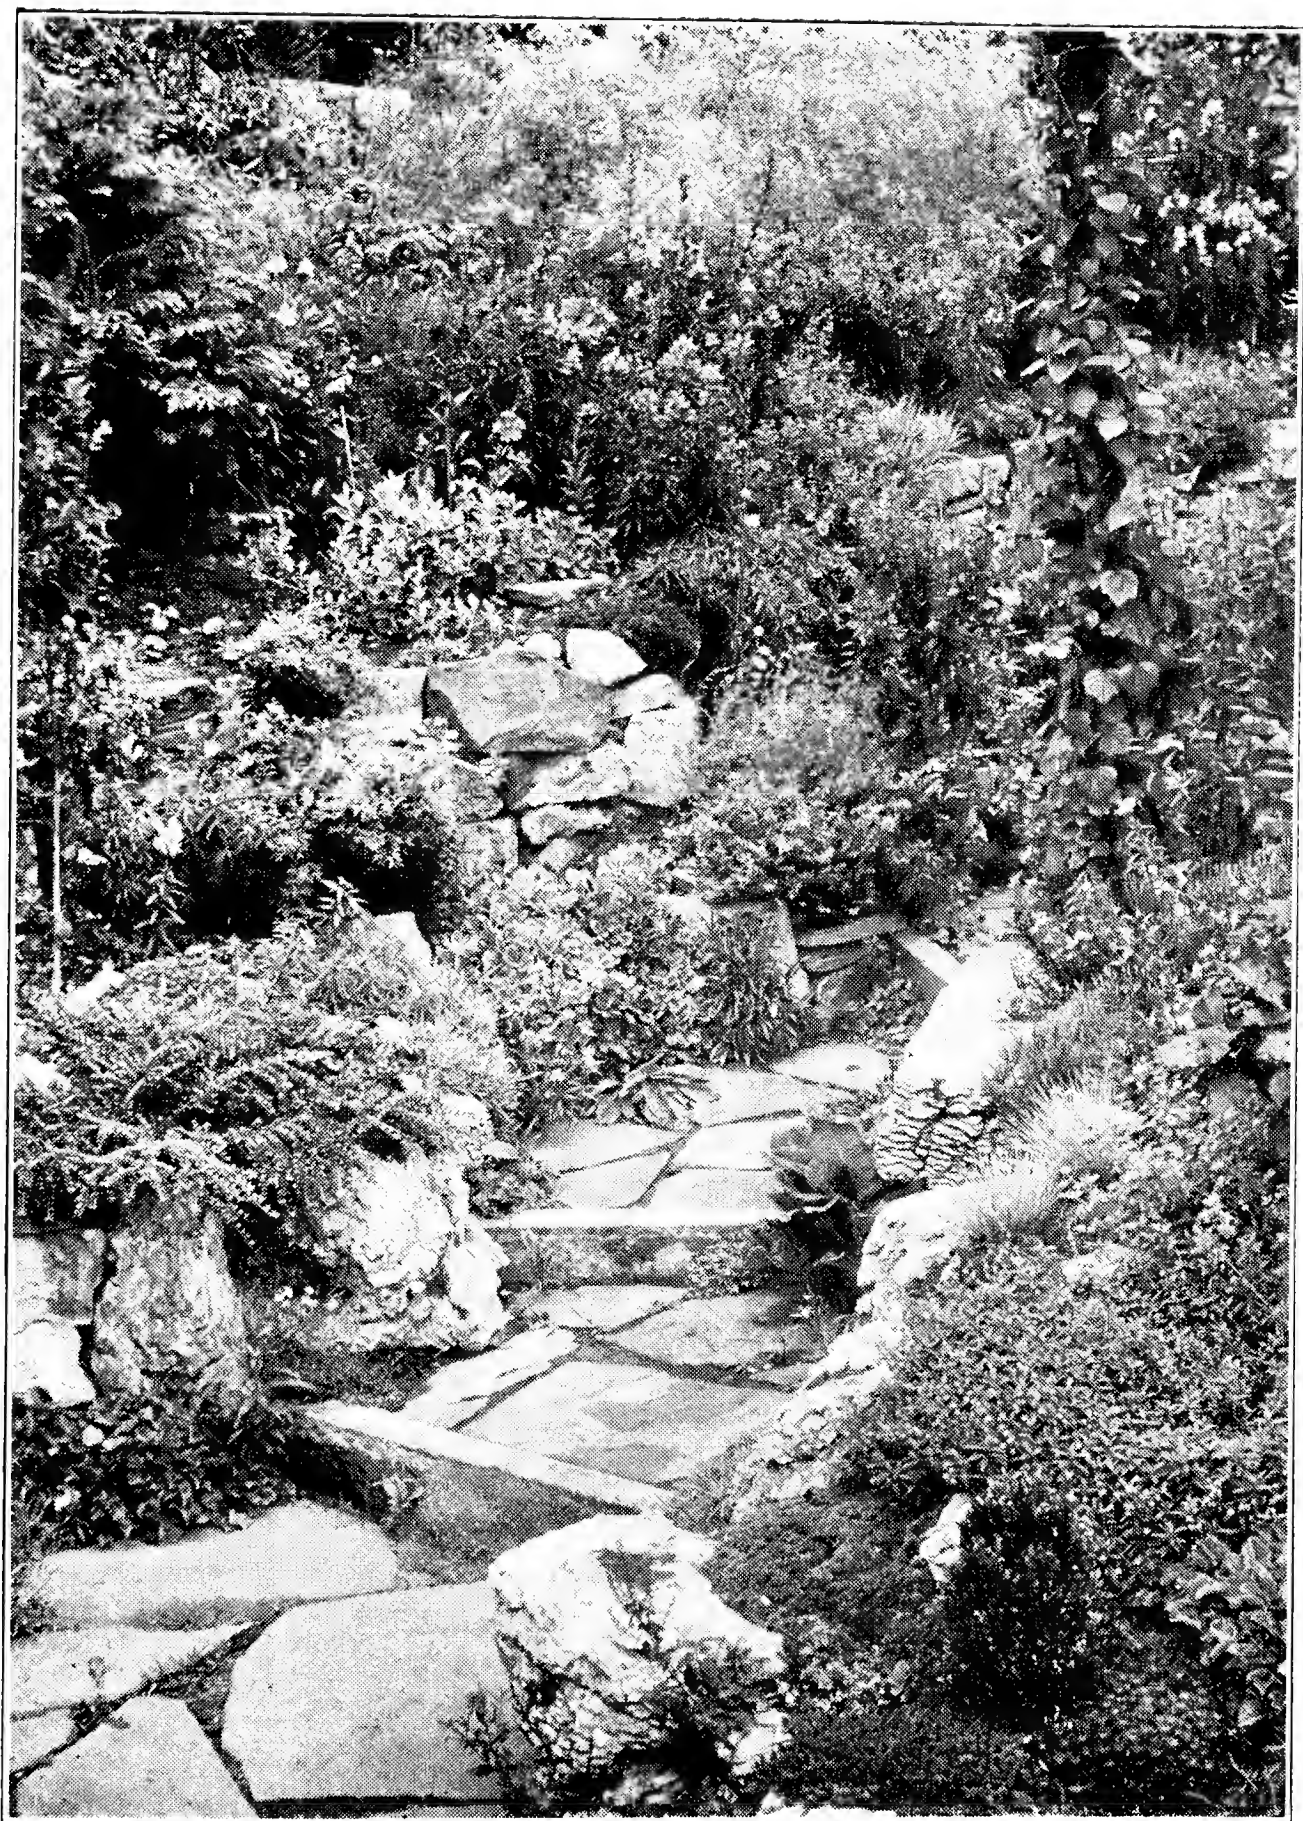

Price 25 cents to 50 cents a package according to the rarity of the plant mentioned.

## HARDY ROCK AND ALPINE PLANTS

### Choice and Rare Varieties

<b>ABELIA GRANDIFLORA</b> — Lovely dwarf evergreen shrub.	
Pale pink flowers all summer. Large field grown plants	
2-3 ft. ....	1.00
3-4 ft. ....	1.50
<b>ACAENA MICROPHYLLA</b> —Bronze-green leaves with crimson fruits. Sun or shade .....	
	.40
<b>ACHILLEA</b>	
<b>Filipendulina.</b> Fern-like foliage. Flat flower heads in brilliant yellow; 3 to 4" across .....	.35

<b>Double Orange.</b> Large double orange flowers. Fine .....	.50
<b>Wendell Rose.</b> A very fine variety with large rosy blooms ..	.50
<b>HELICHRYSUM BRACTEATUM</b> — Bronzy gold heads. 18 in. Fine .....	.50
<b>HEPATICA TRILOBA</b> — Blunt leaves. Blue flowers on 4 to 6 in. stems. Rich, loam in shade .....	.40
<b>HERNIARIA GLABRA</b> — Masses of dark green foliage. Good for carpeting .....	.40
<b>HEUCHERA</b> — Partial shade. Leaf soil.	
<b>Brizoides.</b> Dwarf habit. Pale rose flowers .....	.35
<b>Micrantha.</b> Panicles of small downy pink flowers .....	.50
<b>Pluie De Feu.</b> Very large scarlet flowers. Free flowering. 18 in.	.50
<b>Rosamonde.</b> Large rosy bells on tall branching stems .....	.35
<b>Sanguinea Coral Bell.</b> Coral pink flowers on 18 in stems ....	.35
<b>HOUSTONIA COERULEA</b> — Compact tufts with pale blue flowers on 4 in. stems .....	.25
<b>HUTCHINSIA AUERSWALDII</b> —Cushions of glossy emerald green Dainty white flowers. Shady, moist situation .....	.50
<b>HYPERICUM</b>	
<b>Coris.</b> Heath-like blue foliage. Golden flowers. Rare .....	.50 - .75
<b>Fragile.</b> Bright yellow flowers. Fine Alpine species .....	.35
<b>Moserianum.</b> Shrublet. Bronzy green foliage. Large golden blossoms .....	.50 - .75
<b>Olympicum.</b> Narrow, blue-grey foliage. Immense golden flowers. Long blooming season .....	.75 - 1.00
<b>Patulum Henryi.</b> Fine yellow flowers. Shrubby type. Introduced from China .....	.75 - 1.00
<b>Polyphyllum.</b> Dwarf spreading habit. Large yellow flowers	.50 - .75
<b>Repens.</b> Bright yellow flowers. Prostrate growth .....	.35 - .50
<b>Reptans.</b> Trailing foliage. Bright yellow flowers .....	.35 - .50
<b>Tomentosum.</b> Dense oval woolly foliage. Large yellow flowers. Rare .....	.50 - .75
<b>IBERIS</b>	
<b>Gibraltarica.</b> Large heads of lilac pink flowers. Dwarf evergreen bush .....	.35
<b>Sempervirens.</b> Spreading evergreen mats. Pure white flowers	.35
<b>Snowflake.</b> Very fine. Glistening white flowers .....	.35
<b>INCARVILLEA</b>	
<b>Grandiflora.</b> Brilliant rose flowers. Good rock garden plant	.50
<b>Grandiflora Brevipes.</b> Large deep red flowers on short stems. Very dwarf .....	.50
<b>INULA</b> — Full sun, sandy soil.	
<b>Ensifolia.</b> Narrow leaved tufts. Golden blossoms. Dwarf; everlasting .....	.25
<b>Royleana.</b> Dwarf habit. Orange flowers .....	.25

IRIS

<b>Cristata.</b> Large lilac flowers. 6 in. ....	.35
<b>Dichotoma.</b> Fan shaped foliage, branching stems covered with white and lavender flowers. August and September ..	1.00
<b>Gracilipes.</b> Dainty Japanese species. Lilac blue with golden crest .....	1.25
<b>Reticulata.</b> Beautiful velvety purple flowers flecked with gold	1.00
<b>ISATIS GLAUCA</b> — Showers of small golden flowers in Summer. 3 to 4 ft. ....	.50

JASIONE

<b>Montana.</b> Heads of small delicate blue fluff on slender stems	.35
<b>Perennis.</b> Miniature species. Heads of pale blue on branching stems .....	.25

<b>LAMIUM MACULATUM</b> — Beautiful evergreen plant with variegated leaf. Procumbent stems ending in flower heads of lavender. Continuous bloomer. Sun or shade .....	.35
---	-----

<b>LAVENDULA ATRO-PURPUREA</b> — Silvery-grey foliage with tiny spikes of purplish-blue flowers. 5 to 10 in. Very fine .....	.50 - .75
--	-----------

*Lewisia Howellii*

<b>LEONTOPODIUM</b> — Full sun, poor soil.	
<b>Alpinum.</b> (Edelweiss) White flannel flowers .....	.25
<b>Sibiricum.</b> Large flowered form of Edelweiss .....	.40
<b>LEUCOCRINUM MONTANUM</b> — A bulbous plant with narrow, grass-like foliage and clusters of stemless fragrant white flowers. Sand Lily. Very showy .....	.35

**LEWISIA** — Our plants of Lewisias are very fine specimens. Lewisias should have good drainage and partial shade. Sand leaf soil and good loam

<b>Columbianum.</b> Rosettes of spiny foliage. Sprays of pale pink and white flowers .....	.50
<b>Columbianum Rosea.</b> Rosy-lavender flowers. Long blooming period .....	.35 - .50
<b>Finchii.</b> Large, fleshy rosettes. Beautiful soft pink flowers with deep pink stripe down the center of each petal. Very fine .....	.75
<b>Heckneri.</b> Ovate dark green leaves delicately margined with stiff hairs. Salmon rose flowers .....	.75
<b>Howellii.</b> Rosettes of fleshy, crinkly leaves and charming buff coloured flowers. Petals striped with rose colour. One of the best .....	.75 - 1.00
<b>Leeana.</b> (Evergreen Lewisia) Slender pine-like leaves. Clusters of small magenta flowers .....	.75
<b>Oppositifolia.</b> Profusion of white cup-like flowers .....	.50
<b>Rediviva.</b> Long needle leaves. Large waxy pink flowers. Deciduous species .....	.50
<b>Tweedyi.</b> The largest flowered Lewisia. Waxy apricot flowers, 2 to 3 in. across .....	.75 - 1.00
<b>LIATRIS PUNCTATA</b> — Slender spikes clustered with purple flowers, 12 in. The finest of the dwarf Liatris. Sunny place. Poor soil. Rare. Autumn .....	.75
<b>LINARIA</b>	
<b>Alpina.</b> Neat, trailing blue grey foliage. Flowers of violet and orange. 3 in. All summer. Rare .....	.50
<b>Alpina Rosea.</b> Glauous green foliage forming a close growing trailing mass covered with tiny orchid-like blooms in lavender with rose coloured centers. All summer .....	.50
<b>Cymbalaria.</b> Trailing species. Lavender blossoms .....	.35
<b>Dalmatica.</b> Ornamental glaucous blue foliage. Bright yellow flowers. An unusual and distinct plant .....	.75
<b>LINUM</b>	
<b>Alpinum.</b> Pretty flax with large blue flowers. 6 in. ....	.35
<b>Flavum.</b> Large golden flowers on stems 8 to 10 in. Beautiful hardy perennial for rock garden .....	.40
<b>Narbonense.</b> Large blue flowers on graceful stems. Very fine .....	.50
<b>LIPPIA REPENS</b> — Pale purple flowers. Miniature trailer ..	.35
<b>LITHOSPERMUM</b>	
<b>Graminifolium.</b> Long, narrow grass-like foliage. Bright blue flowers. 12 in. Rare and lovely Alpine .....	1.00
<b>Petraeum.</b> Long silvery foliage. Sprays of bright blue flowers .....	.75
<b>Prostratum Heavenly Blue.</b> Fine, sub-shrubby prostrate species. Deep, sky-blue flowers .....	.75 - 1.00
<b>LOBELIA CARDINALIS.</b> Green foliage. Fine scarlet flowers on 2 to 3 ft. stems. Autumn .....	.25

**LOTUS CORNICULATUS** — Umbels of yellow. A hardy trailer for covering dry banks. Very dainty and attractive .50

### LYCHNIS

**Alpina.** Neat tufts of narrow leaves. Pink flowers ..... .25

**Arkwrightii.** Hybrid. Beautiful flame coloured flowers on 6 to 8 in. stems ..... .35

**Lagascae.** Beautiful dwarf alpine with bright rose flowers; white center. Evergreen habit ..... .50

**Lapponica.** Bright rose flowers. 6 in. .... .50

**LYGODIUM PALMATUM** — Hardy climbing fern. Very rare. Peaty soil. Shade ..... 1.00

**MAZUS PUMILIO** — Forms a dense carpet of dark green leaves studded with small orchid-like flowers. 1 in. .... .35

### MECONOPSIS

**Cambrica.** (Welsh Poppy). Pretty yellow flowers. Sun ..... .75

**Integrifolia.** Huge soft yellow flowers. Beautiful poppy from China ..... 1.00

**Nepalensis.** Magnificent rosette of foliage. Dusky purple flowers ..... 1.00

**Paniculata.** Spire of pendent golden flowers. Beautiful plant 1.00

**Pratti.** Lovely blue flowers. Easy doer ..... .75

**Rigidiuscula.** Lovely blue flowers. Rare ..... 1.00

**Rudis.** Leaves with spiny hairs. Beautiful blue flowers with a fluff of golden anthers in the center ..... 1.00

**Wallichii.** Blue Himalayan Poppy. Moist shade. Rare ..... 1.00

**MENTHA REQUIENI** — Forms a dense green carpet with tiny lavender flowers. Mint-scented leaves ..... .35

### MENZIESIA

**Polifolia.** Compact, evergreen shrub with long racemes of large purple flowers ..... .50 - 1.00

**Polifolia Alba.** Heath like shrub. Large white flowers .... .50 - 1.00

### MERTENSIA

**Lanceolata.** Narrow leaves with down on the upper surface. Lovely clear-blue flowers ..... .75

**Oblongifolia.** Long, narrow blue-grey foliage. Lovely blue flowers on 6 to 12 in. stems ..... .75

**Primuloides.** Dwarf plant. Pretty violet blue flowers. 6 in. .. .75

**Virginica.** Grey foliage. Rich sky-blue flowers on 2 ft. stems .35

**MORINA LONGIFOLIA** — Tall prickly stems bearing tubular white flowers, changing to purple. 2½ ft. Very fine .. .35

**MORISIA MONANTHOS** — Pointed triangular leaflets. Bright golden-yellow flowers. Full sun. A gem ..... 1.00

**MUEHLENBECKIA NANA** — A tiny creeping plant with foliage resembling Maiden-Hair fern. From New Zealand. 2-3 in. .... .50

**MYOSOTIS**

<b>Alpestris.</b> Pretty blue flowers on short branching stems ....	.25
<b>Alpestris Indigo Compacta.</b> Large flowers. Compact-growing. Very free flowering .....	.35
<b>Alpestris Robusta Grandiflora.</b> Large fleshy leaves. Enormous soft azure blue flowers on short branching stems .....	.35
<b>Palustris Graf Von Waldersee.</b> One of the best. Flat pale blue flowers in great profusion on stems 5 to 6 inches. Half shade .....	.50
<b>Rupicola.</b> Small tufts of leaves almost hidden by large blue flowers. Very fine .....	.50
<b>Welwitschii.</b> Pale blue flowers. 6 in. ....	.60

<b>NEPETA NUDA</b> — Silver-grey foliage. Spikes of blue flowers. Not a spreader .....	.40
---	-----

<b>NIEREMBERGIA RIVULARIS</b> — Carpets of dark green leaves. Profusion of large white flowers on 1 in. stems. All summer. Full sun. Sandy soil .....	.35
---	-----

**OENOTHERA** — (Evening Promrose)

<b>Caespitosa.</b> Huge, fragrant flowers of pure white which fade into a blush pink. 4 in. Very fine .....	.50
<b>Fraseri Youngi.</b> Masses of fine yellow. Likes moisture ....	.35
<b>Fruticosa.</b> Forms a close growing mat with sprawling flower stems 4 to 6 inches. Brilliant golden flowers with very pro- nounced stamens. Flowers about 2½ inches across .....	.35
<b>Fruticosa Major.</b> Glossy leaved plant with golden-yellow flowers .....	.35
<b>Missouriensis.</b> Fine trailer. Enormous soft yellow flowers ..	.35
<b>Odorata.</b> Large flowers of pale gold .....	.40

**OMPHALODES**

<b>Cappadocica.</b> Neat tufts of oval leaves. Graceful sprays of large forget-me-not flowers. 6 in. ....	.75
<b>Verna.</b> Large heart-shaped leaves. Masses of deep azure for- get-me-not-like flowers .....	.50

**ONOSMA**

<b>Albo-Roseum.</b> Silvery grey leaves. Large white flowers that fade to pink. Rare. Full sun .....	.75
<b>Cassium.</b> Erect stature and bristly foliage. Enjoys a warm, sun-baked spot .....	.50

<b>OREOCARYA GLOMERATA</b> — Spikes of neat forget-me- not like white flowers .....	1.00
--	------

<b>OROPHACA CAESPITOSA</b> — Silvery mats not over an inch and a half high. Lovely lavender pea shaped flowers in spring .....	.75 - 1.00
--	------------

<b>PACHYSTIMA CANBYII</b> — Low evergreen shrub. Small red flowers .....	.50 - 1.00
---	------------

**PAPAVER**

- Alpinus.** Tufts of finely cut foliage. Flowers of white, rose, yellow or orange. Dwarf species ..... .25  
**Thibetica.** Rare and beautiful type ..... .40

- PELLEA Densa** — (Cliff Brake) Tiny fern. Partial shade or sun. Delightful when used with bulbs ..... .50

**PENTSTEMON**

- Albidus.** Many spikes of white blossoms with nearly black stamens. 12 in. May and June ..... .75  
**Erianthera.** Stems nearly a foot high ending in dense spikes of red-violet blossoms. August ..... .50 - .75  
**Gracilis.** Amethyst flowers ..... 1.00  
**Newberryi.** Leathery little round leaves. Sprays of bright scarlet flowers close to the stem. 2-3 ft. All summer ..... .50  
**Procerus.** Mats of bright green leaves. Heads of deep blue flowers on 12 in. stems ..... .50  
**Rupicola.** Greyish foliage. Red flowers on 3 to 4 in. stems ..... .50  
**South Gate Gem.** Handsome spikes of crimson flowers .... .50

**PHLOX**

- Adsurgens.** Evergreen trailer with bright green leaves. Large flowers of salmon-pink varying to white on 3 to 6 in. stems. Most beautiful of the family ..... .50 - .75  
**Amoena.** Trailer. Grows 4 in. high. Bright pink flowers. Blossoms off and on all summer and fall ..... .35  
**Arendsi Hanna.** Rose-coloured blooms. 10 to 12 in. Continuous bloomer ..... .40  
**Arendsi Hilda.** Pale lavender flowers with rose centers. Very fine all summer and fall ..... .40  
**Arendsi Louise.** Pale lavender flowers. 10 to 12 in. Profuse bloom all summer and fall ..... .40  
**Brittonii.** Lovely new variety. Tiny bushlets covered with star shaped white flowers ..... .50  
**Cowardi.** Rare type with lovely crimson blooms most of the summer ..... .50  
**Diffusa.** Fine type with lavender flowers ..... .50  
**Divaricata Laphamii.** Lovely lavender flowers ..... .35  
**Hoodii** (Planitiarum) Very neat and compact with slender, prickly leaves. Large white blossoms. Rare ..... .75  
**Stolonifera Reptans.** 6 inch stems; at their top is a lovely branched head of large rose blossoms ..... .35  
**Subulata.** Wide mats of green. Rosy-lilac flowers ..... .20  
**Subulata Apple Blossom.** Fine pale pink blossoms ..... .35  
**Subulata Atropurpurea.** Compact dark green foliage, deep red flowers ..... .50  
**Subulata Nelsoni.** White blossoms tinted lavender ..... .25  
**Subulata The Bride.** White flowers with pink eye ..... .25  
**Subulata Vivid.** Salmon-rose flowers. Very fine ..... .35  
**Subulata Wilsoni.** Pale lavender with blue eye ..... .25

**PHYTEUMA** — These plants are rare and interesting. Most attractive in the rock garden. Full sun. Sand and leaf soil.

**Orbiculare.** A pretty dwarf Alpine with graceful balls of deep blue flowers ..... .60

**Scheuchzeri.** Deep violet flowers. Neat foliage ..... .50

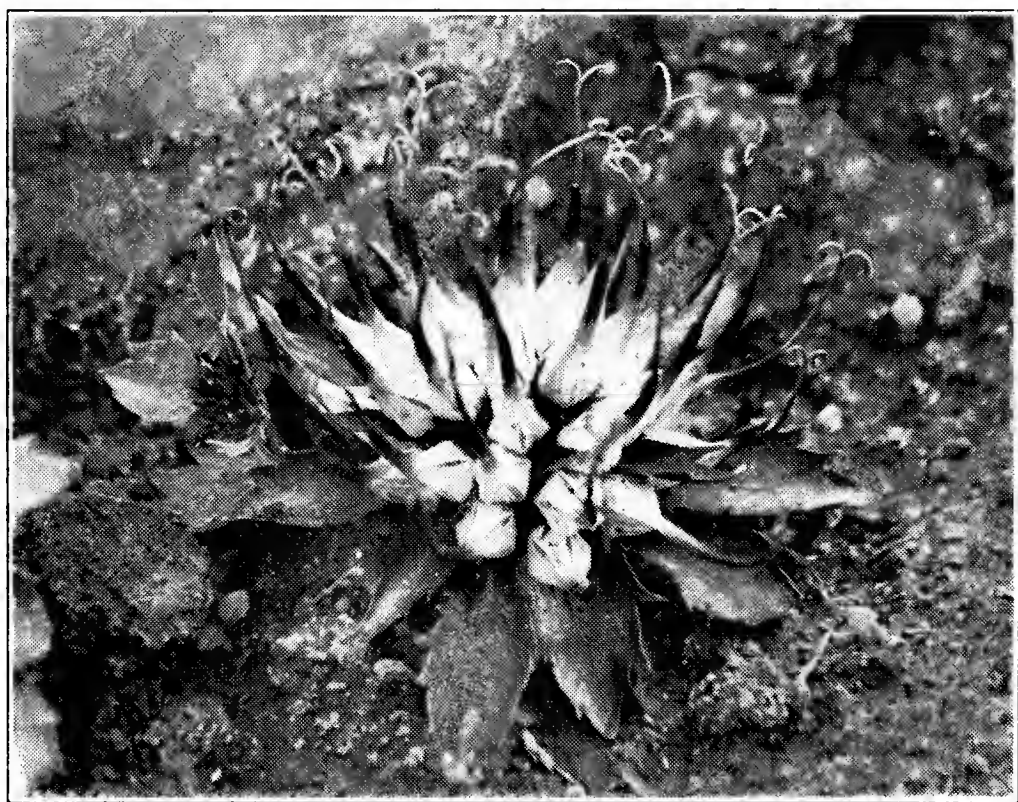

**Spicata.** Large heads of cream-coloured flowers ..... .75

**PLATYCODON MARIESII** — Very fine dwarf variety. Enormous deep blue flowers. Full sun. Midsummer ..... .35

### **POLEMONIUM**

**Carneum.** Ferny foliage. Cream and rose coloured bells .... .35

**Reptans.** Ferny foliage. Lovely blue flowers ..... .35

*Phyteuma*

**POLYGONUM VACCINIFOLIUM** — The trailing masses of glossy green foliage disappear, when Autumn comes, under a profusion of lovely rosy-pink spikes. 2 to 3 in. .... .50 - 1.00

**Affine.** A carpeting plant. The narrow evergreen leaves turn bronze in Autumn. Pink flowers on 6 in. stems from August to October ..... .50 - .75

**PLUMBAGO LARPENTAE** — A lovely plant covered with azure blue stars in early Autumn. The leaves turn bright red at the same time. 9 in. .... .35

**POTENTILLA**

<b>Alpestris.</b> Low-growing plant with showers of very large golden-yellow flowers. Easy of culture in light soil in full sun .....	.50
<b>Argyrophilla Insignis.</b> Beautiful foliage. Amber coloured flowers in great profusion .....	.50
<b>Calabra.</b> Beautiful silvery finely cut foliage with golden blossoms. Very fine .....	.50
<b>Cinerea.</b> Minute plant. Compact evergreen creeper with dainty yellow flowers .....	.35
<b>Hirta.</b> Yellow flowers on 2 ft. stalks .....	.35
<b>Nepalensis.</b> Brilliant rose-crimson flowers .....	.40
<b>Nevadensis.</b> Compact grey-green tufts. Brilliant yellow flowers .....	.40
<b>Nitida.</b> Large rosy flowers. Silvery foliage. Full sun. Poor soil .....	.75
<b>Salmon Beauty.</b> Brilliant coppery-salmon flowers. Very valuable for the rock garden .....	.40
<b>Tomassinia.</b> Grey-green mats. Yellow flowers .....	.50
<b>Tonguei.</b> Lovely flame coloured double flowers. Rare and very fine .....	1.00

**PRIMROSE**

<b>Double Lavender.</b> Beautiful hybrids. Profusion of flowers ..	1.00
<b>Double White.</b> White form of above .....	1.00

**PRIMULA**

<b>Auricula.</b> The true Alpine species. Sweet scented yellow flowers .....	.35
<b>Auricula Gigantea.</b> Very large flowering variety .....	.50
<b>Auricula Hybrids.</b> A select strain of the well-known Auricula. Very fine mixture .....	.50
<b>Beesiana.</b> Velvety purple with a distinct yellow eye, in whorls. Very free flowering .....	.50 - .75
<b>Bulleyana.</b> A beautiful species from Yunnan bearing whorls of rich orange and buff flowers .....	.50 - .75
<b>Bulleyana Hybrids.</b> Spikes of flowers of various shades of rose .....	.75
<b>Capitata.</b> Leaves covered with white farina. Rich violet flowers. Height 9 in. Very fine .....	.50
<b>Capitata Mooreana.</b> Deep purple flowers. Leaves covered with white farina. 12 in. ....	.60
<b>Cashmeriana Hyb.</b> Leaves heavily dusted with meal on under side. Large globular heads of flowers ranging from pure white, through mauve to purple .....	.50 - .75
<b>Cashmeriana Alba.</b> Large pure white flowers .....	.60
<b>Cashmeriana Rubra.</b> A magnificent variety. Glowing ruby colour .....	.75
<b>Chionantha.</b> A handsome species with creamy white flowers and lemon-coloured tube. It likes good cultivation in well drained soil and shady situation. 1½ ft. ....	.75 - 1.00

- Chrysopa.** Lilac-blue heads on slender stems 1 ft. New and distinct ..... 1.00
- Chungensis.** Orange flowers with yellow center. Very fine .75 - 1.00
- Cockburniana.** A lovely species from Western China with umbels of brilliant orange-scarlet flowers. Unique and beautiful ..... .75 - 1.00
- Conspersa.** Chinese alpine with purple flowers ..... 1.00
- Cortusoides.** Neat species with rosy-purple blossoms ..... .30

*Double Flowering Primrose*

- Denticulata Cashmeriana.** Species from the Himalayas with large globular heads of flowers varying from white to deep rosy-lilac. 12 in. .... .50
- Denticulata Grandiflora Hybrids.** Flowers in various shades. Larger than type ..... .50 - .75
- Elatior.** The true or Bardfield Oxlip. Finest strain of Bunch Primrose. Large flowers of wonderful shades of yellow .50 - .75

<b>Farinosa.</b> Pink flowers. Height 6 in. ....	.60
<b>Florindae.</b> New Chinese species. Large clusters of primrose yellow flowers. A giant <i>P. sikkimensis</i> . ....	.75
<b>Forrestii.</b> Beautiful Chinese species. Golden-yellow flowers. Rare .....	1.00
<b>Froncosa.</b> Mealy white foliage. A rare species with rosy lilac flowers .....	.35
<b>Glycosma.</b> A handsome species from Yunnan, having deep purple flowers with golden centers. Shade and moisture .75 - 1.00	

*Primula Veris*

<b>Japonica American Beauty.</b> Deep crimson flowers in long spikes. 1 ft. ....	.35
<b>Juliae.</b> Miniature species with lovely rosey flowers. Early flowering .....	.50
<b>Juliae, Dark Form of Above.</b> Purple flowers. Very choice ..	.75
<b>Lichiangensis.</b> Deep rose flowers. Large hairy leaves .....	1.00

<b>Microdonta.</b> Loose head of wide hanging bells in lovely shade of soft yellow. Likes deep rich and boggy soil .....	1.00
<b>Microdonta Alba.</b> A beautiful variety with fragrant white flowers .....	1.00
<b>Microdonta Alpicola.</b> Pale primrose-yellow flowers. Very fragrant .....	1.00
<b>Officinalis.</b> Very pretty species. Flowers range from pink to mahogany. Wild form for shady situations .....	.35
<b>Polyantha.</b> Fine large flowers in beautiful colours. Choicest mixed .....	.35
<b>Red Hugh.</b> Intense fiery-red flowers .....	.75
<b>Rosea.</b> Rosy carmine. Height 9 in. ....	.75
<b>Secundiflora.</b> Lovely crimson bells on 12 in. stems .....	.75
<b>Sieboldii.</b> Scalloped oval leaves. Red flowers. Height 12 in. ....	1.00
<b>Sikkimensis.</b> The Himalayan Cowslip. Drooping pale yellow flowers. Very fragrant .....	.50
<b>Sino Purpurescens.</b> Deep purple flowers in loose trusses. ..	.75
<b>Spectabilis.</b> Rich rosy flowers. Rosettes of glossy marbled leaves. Alpine species .....	1.00
<b>Veris.</b> Hybrids of the yellow cowslip. The clustered drooping flowers range in colour from crimson to yellow and pure white .....	.35
<b>Veris Acaulis Hybrids.</b> Hybrids of the yellow cowslip .....	.35
<b>Veris Coerulea.</b> Lovely blue hybrid .....	.75
<b>Veris Elatior Polyanthus.</b> Finest strain. Large flowers. Brilliant colours .....	.50
<b>Vulgaris.</b> Pale yellow common primrose .....	.35
<b>Vulgaris Elatior (Munstead Strain).</b> Magnificent strain Bunch Primroses. Flowers are very large and of wonderful shades of yellow; also pure white .....	.50
<b>Waltoni.</b> Very fine primula. Deep violet-red bells. Rare. New .....	.75
<b>Wulfeniana.</b> Solid flat mass of glossy foliage. Very large rosy flowers. Rare. Lime .....	1.00
<b>PULMONARIA</b>	
<b>Angustifolia Azurea.</b> Low-growing herbaceous plant with numerous heads of sky-blue flowers with golden centers. Very choice. Shade .....	.50
<b>Saccharata Mrs. Moon.</b> Marbled foliage. Lovely salmon pink flowers. Fall .....	.75
<b>RAMONDIA PYRENAICA</b> — Deep green crinkly-leaved rosettes. Large lilac-blue flowers with golden centers. Very choice. Shade .....	1.25
<b>RANUNCULUS</b>	
<b>Montana.</b> Large golden flowers .....	1.00
<b>Pumilio.</b> Very dwarf type with large, beautiful golden flowers in early spring .....	1.50
<b>RAOULIA AUSTRALIS.</b> — Mats of glistening silver. Warm sandy soils in full sun. Less than an inch high. Rare ....	1.00

**RHODODENDRON**

<b>Fastigiatum.</b> 14 in. Lavender blossoms. Very fine .....	2.50
<b>Ferrugineum.</b> Beautiful species. Scarlet flowers .....	1.50 - 2.00
<b>Racemosum.</b> Racemes of beautiful pale pink flowers .....	2.50

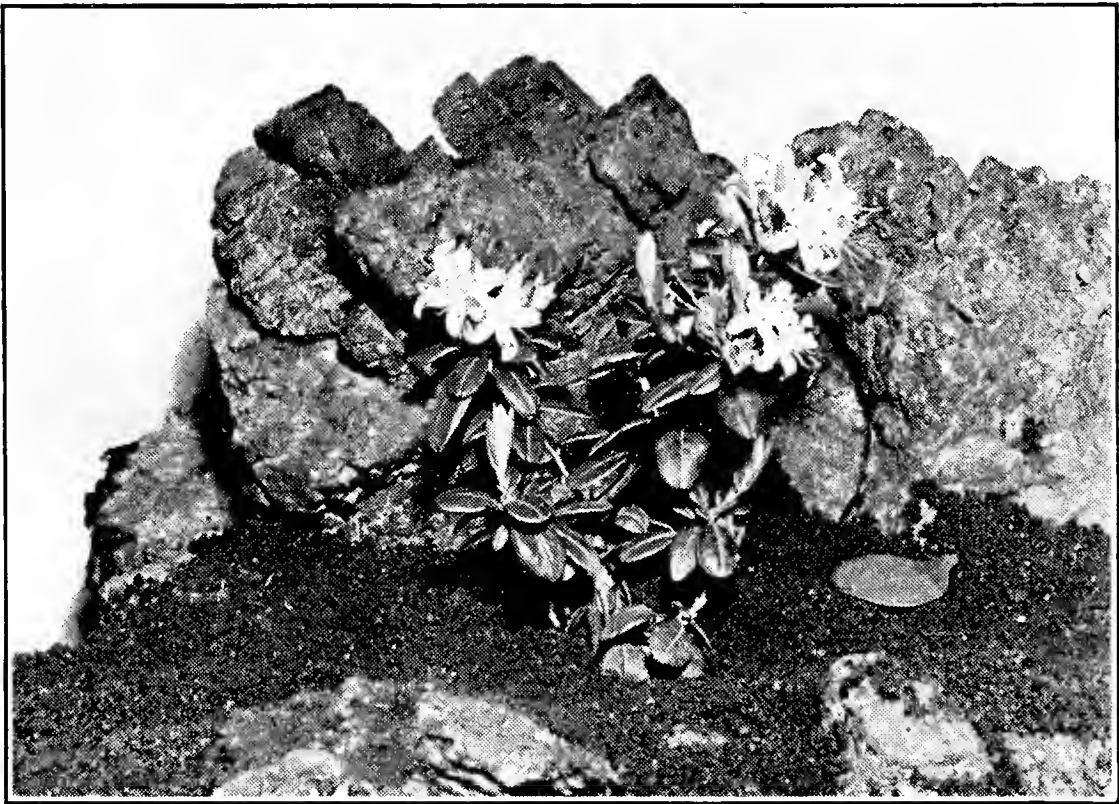

*Ramondia Pyrenaica*

**ROSA** — The following list of Roses are all dwarf and a great addition to the rock garden. They bloom throughout the summer and autumn. Hardy.

<b>Foliosia.</b> Dwarf white rose .....	1.25
<b>Nitida.</b> Pretty, low-growing bush, rarely exceeding 18 inches, and with handsome glossy foliage. Bright rosy-red flowers .....	1.50
<b>Polyantha Nana.</b> Dwarf, charming pink blossoms .....	1.25
<b>Roulettii.</b> Very dwarf. Pretty pink blooms all summer. Keeps its leaves all winter .....	1.50

- ROSCOEA CAUTLIOIDES**—(August Beauty). Narrow leaves of glossy green which shoot in long pointed lances from the base. Large pale yellow flowers. Very fine. Rare .... 1.25
- RYDBERGIA GRANDIFLORA** — Large daisy-like yellow flowers. 6 in. Sun ..... .50

*Rhododendron Ferrugineum*

- SAGINA SUBULATA**—Mossy ground cover for shade. White Starry flowers in May and June ..... .35
- SANTOLINA INCANA** — (Chamaecyparissias) Low spreading bushes with woolly silver-grey leaves. Golden flowers on slender stems in the height of summer. Fragrant herb. Sun ..... .35 - .75
- SAPONARIA OCYMOIDES** — Trailing plant from the Swiss mountains. Sheets of rosy-pink flowers. Sun ..... .25
- SAXIFRAGA** — (Saxifragaceae). No rock garden is complete without a collection of these interesting and beautiful alpines. Their requirements are good drainage and a soil composed of leafmold, loam, a little well decayed cow manure and sand. All types and varieties require partial shade in the Eastern section of this country. They should receive a good top dressing of the above mentioned soil mixture in the spring and autumn, and a light covering of salt hay during the winter.

**EUAIZOONIA GROUP** (Encrusted Varieties). These form rosettes of narrow and spatulate shaped leaves, heavily encrusted with lime in most cases, and are extremely ornamental in the rock garden

<b>Aeizoon Alba.</b> White blossoms. 4 to 6 in. ....	.35
<b>Aeizoon Rosea.</b> Sprays of lovely pink blossoms. 9 in. Rosy form of above .....	.50

*Rosa Roulettii—Tiniest Rose in the World*

<b>Aeizoon Balcana.</b> Pale green leaves. Sturdy red stems about five inches high bearing large flowers densely covered with crimson dots .....	.50
<b>Aeizoon Baldensis.</b> Tiny form with neat cushions. Creamy flowers .....	.75
<b>Aeizoon Churchillii.</b> Pretty hybrid. Silvery beaded leaves ..	1.00
<b>Aeizoon Densa.</b> Minute rosettes. Very silvery .....	.40
<b>Aeizoon Flavescens.</b> Yellow flowers. Choice .....	.50
<b>Aeizoon Lagraveana.</b> Neat, compact rosettes, making large mats. Ruddy stems, 6 in. high with four to six wax-like creamy-white flowers .....	.50

<b>Aeizoon Minima.</b> Silvery miniature foliage. White flowers. One of the best of the very small types. Very scarce ....	1.25
<b>Altissima.</b> Handsome wide rosettes of blue-grey, silver-beaded leaves. Creamy white flowers in branching pyramids of blossom .....	.75
<b>Brevifolia.</b> Small silvery rosettes. Short spikes carrying tiny flowers .....	.60
<b>Cartilaginea.</b> Rosettes of sharp-pointed leaves. Pink-white flowers produced in sprays six to nine in. high. Rare ....	.75
<b>Catalaunica.</b> Silvery leaves. Pure white flowers sometimes spotted with red .....	.75
<b>Cochlearis.</b> Tiny silvery rosettes of tongue-shaped leaves. White flowers. Fine .....	.60
<b>Cochlearis Longifolia.</b> Beautiful hybrid larger than the type. Fine white plumes .....	.75 - 1.00
<b>Cochlearis Minor.</b> Tiny domes of silvered rosettes. White flowers .....	1.00
<b>Cotyledon.</b> From the wide rosettes spring tall pyramidal sprays of white flowers. 18 to 24 in. Very fine .....	.75 - 1.00
<b>Cotyledon Caterhamensis.</b> 3 ft. sprays of white flowers heavily spotted with red .....	.75 - 1.00
<b>Cotyledon Longifolia.</b> Silver rosettes. Splendid spires of white flowers .....	1.00
<b>Cotyledon Montavoniensis.</b> Glossy, broad-leaved rosettes. Large plumes of snow white flowers with red stems .....	1.25
<b>Cotyledon Pyramidalis.</b> Broad-leaved rosettes. Large spires of pure white flowers, flecked with pink .....	.75
<b>Crustata.</b> Neat silver foliage .....	.60
<b>Dr. Ramsey Hyb.</b> Silvered rosettes. Snow-white sprays. Very fine. Scarce .....	1.00
<b>Elliott's Silver.</b> Splendid hybrid with heavily silvered rosettes in close clustered form .....	.50
<b>Engleri.</b> Rosettes of silvery leaves. Plumes of white flowers	1.00
<b>Gaudini.</b> Large leathery rosettes, often tinged with red. Sprays of pink spotted flowers .....	.50
<b>Hostii.</b> Handsome rosettes of long leaves with toothed margins. Panicles of creamy white flowers spotted with pink	.50
<b>Lingulata Superba.</b> Mats of large and out-curved leaves, long and narrow with a beautiful edge of silver beading. Tall sprays of white stars .....	.50 - .85
<b>Lingulata Albida.</b> Distinct form. White flowers .....	.75
<b>Lingulata Bellardi.</b> Rare treasure. Beautiful white flowers ..	.50
<b>Longifolia.</b> Handsome rosettes of silver grey. Large spires of white blossoms from 2 to 3 ft. tall. "Queen of the Saxifrages" .....	1.00 - 2.00
<b>Longifolia Cochlearis.</b> Huge silvered rosette. Large branching panicles of white flowers .....	1.25
<b>Longifolia Hybrida.</b> Lovely hybrid intermediate. Branching rosettes .....	.75 - 1.00

<b>Longifolia Hybrid "Lownii".</b> A beautiful hybrid. Tall sprays of pinky-white flowers .....	.85
<b>Longifolia Major (Hyb.)</b> Large silver rosette. Regal spires of white blossoms .....	1.00
<b>Macnabiana.</b> Fine spikes of white flowers with a ring of dark red near the base .....	.35

*Saxifraga—Cotyledon Pyramidalis*

<b>Mutata.</b> Rosettes about 4 in. in diameter. Copper-coloured flowers on foot high stems .....	.75
<b>Paradoxa.</b> Long, narrow iron-grey foliage edged with silver beading. Interesting and very fine .....	1.00
<b>Portae.</b> Close-set rosettes of narrow leaves widening at the tip. The stems are short and hairy bearing small creamy flowers .....	1.00

<b>Prolifera.</b> Enormous rosettes with beautiful panicle of pale pink star shaped blooms .....	1.00
<b>Pyrenaica.</b> Pointed leaves. Short plumes of white flowers ..	.50
<b>Valdensis.</b> Small rosettes of spatulate leaves and white flowers on stems of an inch or two in length. Choice ....	.75
<b>Wampoles Hybrid.</b> Fine large rosettes heavily silvered. One of the best .....	1.00

*Saxifraga Faldonside*

**KABSCHIA GROUP (CUSHION ROCKFOILS).** Small spiny foliage in shades of lovely blue grey, to be used in moraine, or crevice between two rocks. All are early bloomers, and like warm, half sunny situation, in gritty soil and leafmold.

<b>Ambigua.</b> Flower stems about two and a half inches high, branching near the top and bearing flowers of different shades of red .....	1.00
<b>Apiculata.</b> Mats of green spiny foliage. Primrose yellow blossoms .....	.50
<b>Apiculata Alba.</b> White from of the above .....	.50
<b>Boryi.</b> Rosettes of short, spoon-shaped leaves. Large white flowers borne on one and a half inch stems. Very fine ....	1.00
<b>Boydii.</b> Attractive deep yellow flowers. Rare and choice ....	1.25
<b>Burseriana Magna.</b> Short, sturdy growth and large white flowers. One of the best .....	1.25

<b>Elizabethae.</b> Wide yellow-green mats. Soft yellow flowers ..	.60
<b>Faldonside.</b> Large flowers of a pale shade of yellow with rounded petals having a cramped margin. Very beautiful and choice .....	1.50
<b>Ferdinandi-Coburgi.</b> Neat cushions of silvery-grey. Bright yellow flowers .....	.50
<b>Godseffi.</b> Blue-grey rosettes. Yellow flowers .....	.75
<b>Haagei.</b> Rosettes of dark green spiny foliage. Small yellow flowers on short stems .....	.60
<b>Irvingii.</b> Cushions of dense, blue-grey rosettes. Hybrid with pink flowers. 1 in. A gem .....	1.50

*Saxifraga Petraschii*

<b>Marginata.</b> Fine, compact rosettes. Large white flowers ....	.50
<b>Myra.</b> Raised by Reginald Farrer probably from Scardica and Lilacina. Very dwarf with fine rosey blossoms. Heavily encrusted foliage. Rare and fine .....	1.50
<b>Obristii.</b> A rare hybrid with large white flowers .....	1.25
<b>Petraschii.</b> Tight silvery cushions. Large white flowers. Choice .....	1.25
<b>Sancta.</b> Wide masses of short green leaves with broad edges of silver beading. Stems of 2 or 3 in. Carrying loose trusses of bright yellow flowers .....	.50 - 1.00
<b>Scardica.</b> A dense growing plant with oblong leaves. The loose heads of white flowers are borne on stems from 3 to 4 in. long .....	1.00

**DACTYLOEIDES GROUP (MOSSIES).** — These form cushions and mossy mats. They are especially nice for place in damp, shady part of rock garden. They like plenty of leafmold and appreciate an extra mulch in spring and fall.

<b>Aphylla.</b> Forms a compact little cushion. The flower stems are an inch or so long and bear a single yellow flower ..	.75
<b>Apple Blossom.</b> Beautiful hybrid. Mossy foliage. Pink flowers	.75
<b>Bathoniensis.</b> Fine mossy hybrid. Charming rosy-pink blooms	.50
<b>Ceratophylla.</b> Mats of shining foliage. Large, pure white flowers on branching stems .....	.60
<b>Caespitosa.</b> Dense green tufts. Branching stems of 6 to 9 in. carrying pure white flowers .....	.40
<b>Decipiens Alba.</b> Foliage with broad, blunt lobes. White flowers .....	.35
<b>Decipiens Hybrid Sp. No. 5.</b> Fine hybrid .....	.50
<b>Decipiens Hybrid Sp. No. 10.</b> Rare and very fine hybrids ....	.50
<b>Guildford Seedling.</b> Bright crimson hybrid. One of the best	.50
<b>H. S. Stokes.</b> Compact habit. Bright carmine flowers .....	.50
<b>James Bremner.</b> Large, white flowered Mossy .....	.50
<b>Obscura.</b> Compact carpet of bright green foliage. White flowers .....	.60
<b>Red Admiral.</b> One of the best Mossies .....	.50 - .75
<b>Schoen Von Ronsdorf.</b> Deep red flowers verging on crimson	.40 - .60
<b>Wallacei.</b> Masses of rich green leaves. Pure white flowers of enormous size. One of the finest mossies .....	.50 - 1.00
<b>ROBERTSONIANA GROUP (LONDON PRIDE).</b> — This section embraces the well known London Pride and its immediate relatives. They require shady, moist position and all have attractive green foliage and delicately coloured flowers. This group requires shade and moisture.	
<b>Andrewsii.</b> Rosettes of bright green leaves. Spikes of white flowers spotted red .....	.50 - .75
<b>Capillipes.</b> Green foliage and white flowers speckled with pink. 6 in. stems .....	.75
<b>Cuneifolia.</b> Rosettes scalloped at the edge. Stems 3 in. high with a dainty shower of white stars with a yellow dot at the base of each petal .....	.50 - .75
<b>Geum.</b> Round, leathery leaves. Showers of pretty London Pride flowers. 9 to 12 in. ....	1.00
<b>Hirsuta.</b> Leaves fringed at the edge Pearl-white flowers ....	.75
<b>Umbrosa.</b> (London Pride). Dark green foliage. 15 in. sprays of pink flowers .....	.35 - .50
<b>Umbrosa Primuloides.</b> Mounded rosettes of dark wavy-edged foliage. 8 in. loose showers of soft pink flowers on pink stems .....	.40

- DIPTERA GROUP (TWO WINGED ROCKFOILS)** The members of this section are characterized by having petals of unequal length, usually two very long, and two short ones. They are natives of Japan and China. They are practically hardy if planted in a well sheltered position, and like a rich, moist, well-drained soil.
- Sarmentosa.** Attractive white and green mottled leaves. White flowers. June and July. Shade and moisture ..... .75
- TRACHYPHYLLUM GROUP (ROUGH-LEAVED ROCK-FOILS)** A group of low growing prostrate species. They require a somewhat moist position in stony soil.
- Bronchialis.** Grey-green leaves. White flowers with yellow spots at base of petals ..... .60
- Virginensis.** Rosettes of toothed oval leaves. Showers of little white stars ..... .25
- MEGASIA GROUP (LARGE LEAVED ROCKFOILS).** These are known from all other Saxifrages by their massive size and breadth of leafage, and most of them being an evergreen character are very effective as hardy foliage plants at all times of the year. Plant in sheltered positions.
- Cordifolia.** Glossy leathery leaves. Pink flowers on 12 in. stems ..... .50
- Megasia Hybrida.** Fine mixture of the large leaved Saxifrages ..... .75
- PELTIPHYLLUM GROUP (UMBRELLA - LEAVED ROCKFOIL).** There is only one species in this section. It has very handsome foliage and for this purpose is well worth growing in groups by the waterside, in woodlands, or wherever it can get sufficient moisture for developing its large leaves. It is very hardy and vigorous, and although it appreciates a moist position, it will accomodate itself in much drier situations.
- Peltata.** Large umbrella-shaped leaves on 3 ft. stems. A native of California. Likes a moist situation. Rich soil ..... .75
- SCABIOSA GRAMINIFOLIA** — Silvery leaves. Flowers of pale blue or soft rose. 8 in. A fine dwarf ..... .50
- SEDUM** — Sun loving plants, excellent for walls, dry banks, stepping stones, and rock gardens. The majority are well worth a place for the low carpets of richly coloured freshy leaves alone.
- Acre.** Evergreen carpeter. Yellow flowers ..... .25
- Album.** Masses of grey-green leaves. White flowers on 6 in. stems ..... .25
- Altissimum.** Yellow flowers on 9 in. stems. Fleshy leaves .. .25
- Anacampseros.** Leathery, grey-green leaves. Dull purple flowers ..... .50
- Anglicum.** Bluish-grey foliage. Branched heads of pearl-white flowers on 3 in. stems ..... .25
- Brevifolium.** Very dwarf. Brilliant green leaves. Pearl-white flowers ..... .35

<b>Dasyphyllum.</b> Small blue foliage. Sprays of rosy stars .....	.25
<b>Divergens.</b> Small green rosettes. Yellow blooms .....	.40
<b>Ewersii.</b> Blue-grey leaves. Crimson blossoms .....	.35
<b>Ewersii Hayesii.</b> Compact form. Purple flowers .....	.50
<b>Fosterianum.</b> Brilliant golden flowers on 10 inch stems ....	.35
<b>Golden Acre.</b> Neat and evergreen with golden mats .....	.35
<b>Gracile.</b> Smooth, cylindric green leaves. White flowers with red anthers .....	.50
<b>Hispanicum.</b> Soft blue-grey foliage. The white flowers are touched with pink .....	.25
<b>Kamschaticum.</b> Trailing habit. Yellow flowers .....	.25
<b>Lineare Variegata.</b> A lovely trailer with foliage variegated; blue and cream colour .....	.25
<b>Lydium.</b> Bright green foliage which turns red in poor soil ..	.25
<b>Magellense.</b> Bright green, flat leaves. Pure white flowers ..	.35
<b>Maximowiczii.</b> Bright golden flowers on 12 inch stems .....	.35
<b>Middendorffianum.</b> From China. Reddish-brown leaves. Bright yellow flowers .....	.35
<b>Mixed Varieties.</b> Our selection .....	doz. 1.50
<b>Moranense.</b> Wiry red stems. White flowers .....	.40
<b>Nevi.</b> Blue-grey rosettes. Pointed-petalled white stars. Choice	.35
<b>Oregonum.</b> Bright green rosetted foliage. Heads of yellow- ish-pink. Very fine .....	.50
<b>Oreganii.</b> New. Like small grey roses on bare stems. Fine	.75
<b>Pulchellum.</b> Bright green foliage. Rose-pink flowers .....	.35
<b>Pilosum.</b> Rare. Tight rosettes. Large rose coloured flowers	.50
<b>Reflexum.</b> Greyish rosettes of narrow leaves. Golden yellow flowers .....	.25
<b>Rupestre.</b> Blue-grey leaves. Golden flowers .....	.35
<b>Sarmentosum.</b> Creeping variety, about 4 in. high, with yellow flowers in summer .....	.20
<b>Sempervivum.</b> Fat, fleshy dark green leaves deepening to bronze, resembling a Sempervivum of the Calcareum group. Velvety bell-shaped flowers of scarlet .....	1.00
<b>Sexangulare.</b> Mats of gold. Fine for rock walls .....	.25
<b>Sieboldii.</b> Lovely silvery blue foliage. Trailing velvety. Bright pink flowers in heads. Autumn. Shade .....	.35 - .50
<b>Spathuifolium.</b> Evergreen rosettes tinged with red. Branched heads of bright yellow flowers. Very fine .....	.50
<b>Spathuifolium Purpureum.</b> Purple leaved variety. Very hand- some. Rare .....	.75
<b>Spectabile.</b> Fleshy, glaucous leaves. Huge panicles of pink flowers. 2 ft. Autumn .....	.35 - .50
<b>Spurium.</b> A creeping plant with broad leaves and starry flowers of bright pink. Autumn .....	.25
<b>Tenuifolium.</b> Clustered spiky mats of pale green with white star shaped flowers. Rare .....	.50
<b>Yosemitense.</b> Rosettes of broadly spathulate green to reddish leaves. Cymes of orange flowers on 4 in. stems. New. Rare and very fine .....	.75 - 1.00

**SEMPERVIVUM.** Interesting plants of easy culture for sunny situations. Soil should be a light loam containing sand, well rotted manure, leafmold and stone chips. The majority of these plants change their form to some extent in different situations making it rather difficult to classify them correctly.

<b>Acuminatum.</b> Small type. Pale green sharp pointed rosettes	.35
<b>Alberti.</b> Pale green rosettes. Rose-coloured flowers	.50
<b>Alpha.</b> Very fine and rare type. Large rosettes	.75
<b>Arenarium.</b> Small type with green rosettes. Large cream coloured flowers on 2 in. stems	.25
<b>Arachnoideum.</b> Pale purple flowers on cobweb covered rosettes	.25 - .50
<b>Arachnoideum Rubrum.</b> Medium rosettes. Dark pink	.40
<b>Arachnoideum Minimum.</b> Smallest of the cobweb types	.50
<b>Atroviolaceum.</b> The largest and finest of this genus	1.00
<b>Beta.</b> Rare. Large rosette of peculiar habit. Very interesting. New	.75
<b>Blandum.</b> Large rosettes. Leaves crimson except for the edges and tip which are green. Light rosy purple flowers	.75
<b>Braunii.</b> Small rosettes of pointed leaves. Slender 4 in. stems carrying a cluster of bright yellow flowers	.25
<b>Doellianum.</b> Loose rosettes. Dull pink flowers	.35
<b>Dolomiticum.</b> Small dense rosettes. Acute leaves with hairy edges. Broad rose petals	.35
<b>Fauconettii.</b> Small rosettes. Spidery filaments at the top of the leaves	.40
<b>Fimbriatum.</b> Small rosettes of pointed leaves. Bright pink flowers	.25
<b>Funki.</b> Bright emerald green rosettes even in winter. Large, fringy flowers of pale pink	.25
<b>Globiterum.</b> Tight green rosettes tipped with red	.25
<b>Greenii.</b> Large green rosettes	.35
<b>Heuffellii.</b> Small yellow flowers. Very fine	.50
<b>Lown's No. 60.</b> Medium rosettes suffused with red	1.00
<b>Mettenianum.</b> One of the prettiest. Medium rosettes, grey-green, marbled with grass-green, tipped with red. Rose flowers	.50
<b>Minto Seedling.</b> Very rare hybrid. Large rosettes. Deeply tinged with red	1.00
<b>Pittoni.</b> Medium-sized rosette, with a downy surface to the leaf. Pale yellow flowers. Scarce	.75
<b>Mixed Varieties.</b> Unnamed doz.	1.00
<b>Pyrenaicum.</b> From the Pyrenees. Pale rose flowers in wide heads	.75
<b>Rubicundum.</b> Large rosettes of reddish colour	.50
<b>Soboldiferum.</b> Pretty golden rosettes	.25
<b>Triste.</b> Rosettes of bronzy-green foliage. Purple flowers	.50
<b>Wulfeni.</b> Large sea-green rosettes. Sprays of large, pale yellow flowers with purple centers	.75

**SILENE**

<b>Acaulis.</b> Mats of bright green moss-like foliage. Almost stemless pink flowers in June and July. Requires a little shade during the hottest part of the summer .....	.35
<b>Alpestris.</b> Glistening white flowers. A very fine dwarf species .....	.25
<b>Alpestris Grandiflora.</b> Delicate branching stems about 6 in. high carrying wide showers of white flowers with fringy petals. It likes a cool place in rich light soil .....	.50
<b>Californica.</b> Huge, ragged, velvety scarlet flowers in a dark calyx. Requires deep light soil, well-drained and a sheltered sunny place .....	.50
<b>Grandis.</b> A fine hybrid with fringy pink flowers .....	.40
<b>Hookeri.</b> Soft blue-grey foliage and very beautiful fringed coral-pink flowers. 6 in. June. Choice .....	.75
<b>Maritima Fl. Pl.</b> Blue-grey leaves. Large crinkled white blossoms. All summer .....	.50
<b>Petraea.</b> Tufts of long, narrow, bright green leaves. Lovely white stars with fringed petals .....	.50
<b>Roehmeri.</b> Mat forming plant with 6 in. stems. Clusters of white blossoms .....	.35
<b>Saxifraga.</b> Mossy growth. White flowers in great profusion all summer .....	.35
<b>Schafta.</b> Profuse leafy tufts. Showy flowers of rosy-purple ..	.30
<b>SOLDANELLA ALPINA</b> — Dwarf Alpine. Drooping violet flowers on three in. stems. A gem. Scarce .....	.75 - 1.00
<b>SPIREA NANA</b> —A charming dwarf shrublet from the Northwest .....	1.25
<b>STACHYS CORSICA</b> —Dwarf carpenter. Pink and white flowers all summer .....	.50
<b>STATICE MINUTA</b> — Tiny rosettes of spoon-shaped leaves. Lavender blossoms on sprays of three to four inches. Very fine .....	.40
<b>SYNTHYRIS</b>	
<b>Pinnatifida.</b> Dainty plumes of blue on 8 in. stems. Rare and fine .....	1.00
<b>Rotundifolia.</b> Spikes of pale blue flowers .....	.35
<b>TETRANEURIS SIMPLEX</b> —Neat clustered rosettes of lance-like leaves edged with silver. Golden daisy blossoms on leafless stems 4 to 6 in. high in June and July. Rare and fine. New .....	1.00
<b>TEUCRIUM CHAMAEDRYIS</b> — Tiny shrub with glossy dark green leaves and rosy-lilac flowers .....	.35 - .50
<b>THALICTRUM DIPTEROCARPUM</b> — Lovely spires of mauve flowers .....	.35
<b>THALSPI JANKAE</b> — Tufts of silvery leaves. Short branching stems carrying pure white, sweet scented flowers. 2-3 in.	.50

**THYMUS**

<b>Aureus.</b> Bushy type. Golden foliage .....	.50
<b>Azoricus.</b> Pretty green mats. Rosy flowers .....	.40
<b>Citriodorus Argenteus.</b> Silver leaved, lemon-scented Thyme .35 -	.50
<b>Citriodorus Aureus.</b> Golden leaved Lemon-scented Thyme ..	.35
<b>Serpyllum Coccineus.</b> Crimson flowered creeping thyme ....	.35
<b>Serpyllum Lanuginosa.</b> (Woolly Thyme). Good carpeter. Fragrant grey woolly foliage and lavender flowers .....	.35
<b>Vulgaris.</b> (Common garden thyme). The well-known herb. Fine foliage .....	.35

<b>TOWNSENDIA EXSCAPA</b> — Narrow, oval, greyish leaves. Wide Aster-like flowers of white, pink or purple. Rare and beautiful. Full sun. Sandy soil .....	1.00
--	------

<b>TOXICOSCORDION GRAMINEUM</b> —Numerous small white blossoms with yellow stamens on an erect spike. June ....	.75
--	-----

**TRADESCANTIA**

<b>Brevicaulis.</b> Large rose-coloured flowers on 12 in. stems. A charming dwarf. All summer. Sun. Sandy soil .....	.50
<b>Bracteata.</b> 6 in. Very fine dwarf. Mauve and pink flowers. All summer .....	.75
<b>Virginica.</b> Blue flowers. 18 in. Blooms all summer .....	.35

**TROLLIUS**

<b>Europaeus.</b> Large yellow globe-like flowers. A plant of the Alpine meadows .....	.40
<b>Fire Globe.</b> Large flowers of glowing orange colour. The finest .....	.60

**TUNICA**

<b>Saxifraga.</b> Masses of threadlike branches and delicate leaves with a profusion of pink flowers all summer .....	.35
<b>Saxifraga Fl. Pl.</b> Tufted plant with light pink flowers. Double flowering form. Very fine .....	.75

<b>UMBILICUS CHRYSANTHUS</b> — Masses of bright green rosettes. Stars of soft yellow rayed with red .....	.75
--	-----

<b>ULEX EUROPAEUS.</b> (Common Gorse). Spiny shrub produc- ing quantities of yellow flowers .....	.50 - 1.00
--	------------

**VERBENA**

<b>Aubletia.</b> Masses of pink flowers on 12 in. stems .....	.50
<b>Venosa.</b> Violet purple flowers on 9 to 10 in. stems .....	.40

**VERONICA**

<b>Amethystina.</b> Blue flowers in long racemes. Tufted habit ..	.35
<b>Autumn Glory.</b> A beautiful shrublet. Neat leathery dark green leaves. Masses of deep blue flowers. Rare .....	.75
<b>Filiformis.</b> Trailing evergreen with flowers of blue with white lip which almost hide the foliage in early spring and con- tinue in bloom over a long period .....	.40
<b>Gentianoides.</b> Large tufts. Pale blue flowers. Fine .....	.35
<b>Incana.</b> Handsome tufts of silvery-grey foliage. Spikes of Tyrian-purple flowers .....	.35

<b>Prostrata.</b> Dwarf species. Sheets of brilliant blue .....	.35 - .50
<b>Prostrata Nana.</b> Dwarf species. Masses of brilliant blue flowers .....	.50
<b>Repens.</b> Trailing species. Large, pale blue flowers .....	.35
<b>Repens Rosea.</b> Leaves feathered in broad segments. Pink flowers .....	.50
<b>Rupestris.</b> A pretty trailing and mat forming plant with spires of blue flowers .....	.35
<b>Saxatilis.</b> Neat, dwarf evergreen with large deep blue flowers, with ring of red .....	.50
<b>Spicata Nana.</b> Dwarf habit. Spikes of violet-blue flowers. 5 in. ..	.75
<b>Teucrium Trehanii Royal Blue.</b> Dwarf and bushy hybrid with beautiful bright blue flowers. Golden foliage .....	.35

## VIOLA

<b>Admiration.</b> Beautiful rich purple. Profuse bloomer .....	.35
<b>Bosniaca.</b> Brilliant rosy-lilac flowers. One of the finest. Free blooming spring and autumn .....	.35 - .50
<b>Bizarre.</b> Mixture of soft colourings in purple and apricot ..	.50
<b>Cornuta Cyclops.</b> Hybrid tufted Pansy. Brilliant deep violet with white eye .....	.35
<b>Cornuta Hybrids.</b> Mixed. Remarkable shades and colours ..	.35
<b>Cornuta Papilio.</b> Pretty hybrid. Continuous bloom summer and winter outside. Large violet blue flowers in great profusion .....	.35 - .50
<b>Cucullata.</b> The hooded violet. Large blue flowers. 4 in. ....	.35
<b>Florariensis.</b> Large lilac flowers with lower petal marked in white. Long blooming period .....	.35
<b>Giant Yellow.</b> Beautiful golden blossoms of large size .....	.35
<b>Gracilis.</b> Flowers of Tyrian-purple on graceful stems .....	.35
<b>Gracilis Jewel Von Eisenach.</b> Fine variety of above .....	.50
<b>Gracilis Lord Nelson.</b> Rich violet-purple flowers. Neat habit ..	.35
<b>Hybrida Haselmere.</b> Produces an abundance of pretty soft lilac-pink flowers. Very neat habit. Continuous blooming period .....	.35
<b>Jersey Gem.</b> Violet flowers on 8 in. stems .....	.25
<b>Lutea.</b> Golden-yellow flowers .....	.25
<b>Lutea Splendens.</b> Large bright golden flowers .....	.35
<b>Ocellata.</b> Heart-shaped, pointed leaves. The upper petals are white on the inside and deep purple on the outside; the lower are yellow, veined with purple. Rare .....	.50
<b>Pedata.</b> Pale lavender flowers. Deep cut foliage .....	.25
<b>Pedata Bicolor.</b> Deep velvety violet upper petals. Pale blue lower petals. The finest of our native violas. Blooms all summer and autumn .....	.35 - .50
<b>Pedunculata.</b> Golden yellow, outside of petals dark brown ..	.40
<b>Royal Gem.</b> Gorgeous royal purple flowers of large size ....	.40
<b>Radio.</b> Light lavender with darker shadings .....	.35
<b>Sylvestris Rosea.</b> Dwarf species with fine rosy-pink flowers ..	.40
<b>W. H. Woodgate.</b> Large, dark violet flowers .....	.40

**WAHLENBERGIA** (Edrianthus)

<b>Dalmatica.</b> Rounded flower heads of blue flowers on 6 to 8 in. stems. Very fine .....	.40
<b>Pumilio.</b> Dainty blue flowers. An excellent rock plant .....	1.00

*Wahlenbergia Pumilio*

**DWARF OR SLOW GROWING CONIFERS AND EVERGREENS  
SUITABLE FOR ROCK GARDENS**

Pinus Cembra .....	1.50
Sciadopytis Verticillate .....	.75
Retinospora Obtusa Tetragona Aurea .....	1.25

Pinus Mughus .....	1.25
Juniperus Stricta .....	1.25

**T**ABLE GARDENS are becoming very popular. When properly planted with alpine miniatures they are fascinating and provide great interest during the winter. The list of plants given below have been thoroughly tested in overheated rooms and have proven their adaptability to flourish under these trying conditions.

Saxifraga in variety, Primula Juliae, Cotula Squalida, Rosa Roulettii, Bellium Minutum, Bellis Rotundifolia Caerulescens, Edrianthus, Sedum Oregonum, Sedum Spathuifolium, Soldanella Alpina, Erinus Alpinus, Dwarf Ivies, Dwarf Ferns in variety, Lotus Corniculatus, Mentha Requieni, Hutchinsia Auerswaldii, Houstonia Coerulea, Sedum Dasyphyllum, Raoulia Australis, Achillea Tomen-tosum, Globularia Nana, Small types of Sempervivums. Lithospermum.

*Erica Used as Tree in This Garden*

For "trees" the following may be used:— Aethionemas, Hypericums, Ericas, Small Azaleas, Seedling Evergreens. Dwarf Rhodedendrons.

If you will send us the size of the container, we will be very glad to give suggestions on how to arrange the planting and what to use. We also have a collection of beautiful stones to use in these gardens.

*Planted Wall*

SEDUM SIEBOLDII. Top or face.

## CONTINUITY OF BLOOM

THE OPINION among many alpine enthusiasts in the past has been that a rock garden is only an event of the spring. Unfortunately this has proven the case through a lack of knowledge of late flowering plants and faulty arrangements of planting to carry bloom from very early spring until the heavy frosts of winter arrive. Below we mention a few plants which will carry the bloom through summer and autumn and we will be glad to add other names of late flowering plants if you will write us the situation of your rock garden and your wishes. A great many rock plants will bloom again in the autumn if cut back and given a top dressing after the spring bloom is past.

Abelia Grandiflora	Achillea Aurea
Alyssum Argenteum	Achillea Tomentosa
Androsace Lanuginosa	Anemone Hupehensis
Arenaria Grandiflora	Asperulas
Asters in variety	Bellium Minutum
Bellis Rotundifolia Caerulescens	Callirhoe Involucrata
Campanulas in variety	Cheiranthus Allioni
Clematis Integrifolia	Convolvulus Mauritanicus
Cyclamen	Various types of Dianthus
Dianthus	Ericas
Dicentra Formosa	Erodiums
Erigerons	Euphorbias
Eryngiums	Genistas
Felicia Petiolata Rosea	Geraniums
Gentianas	Houstonia
Geums	Inulas
Hypericums	Lotus Corniculatus
Lithospermum	Nierembergia Rivularis
Morisia	Onosma
Oenothera	Papaver
Oxalis	Phlox in variety
Various Pentstemons	Sedums
Primulas, several types	Thymes
Sempervivums	Tradescantia
Stachys Corsica	Verbenas
Tunica Saxifraga	Violas
Veronicas	
Dwarf Roses	

## THE PERFECT GARDEN LABEL

Made in two sizes, Border size and Rock Garden size.

Ordinary lead-pencil markings on this Label are permanent without any protection, in all weathers, all soils, all seasons, above or under the soil. Inconspicuous, the beautiful cool gray green color blends with the soil, foliage, and rocks. They are economical as the markings can be completely erased with pencil eraser and Label marked again at any time.

THE ROCK GARDENER

THE AMERICAN HORTICULTURAL SOCIETY

Publishes for its members a quarterly magazine in which are many articles and pictures of plants that should be known to all rock gardeners. You are cordially invited to join by sending your check for three dollars to the Secretary, Mr. C. C. Thomas, 211 Spruce Street, Takoma Park, D. C.

HORTICULTURE

Published semi-monthly at Horticultural Hall, Boston, Mass. Subscription rate—one year, in advance, \$1.00.
